

Pick You Up

Written by Norrie MacIver

VERSE 1

When you're bones, are sore and broken,
and your face is wrinkled old and grey,
and your life flashes before you,
who will pick you up who will pick you up?

VERSE 2

As the bottle is slowly opened
And your demons take a hold of you
When the glass is finally empty
Who will pick you up who will pick you up?

CHORUS

No, I won't leave your side
I am here until the end
Close your eyes and think of home
You'll wake up there you'll wake up there

VERSE 3

When the walls all start to close in
And the darkness takes control of you
And your faith is there to test you
Who will lift you up? Who will lift you up?

VERSE 4

When the rain is cold and heavy
And the wind blows through your soul
And the sun no longer feels warm
Who will lift you up? Who will lift you up?

VERSE 5

When the night has finally fallen
And your day no longer starts with me
And the world feels cold and empty
Who will raise you up who will raise you up?
